

## **Toot Hill School - On-site Learning Plans for Years 10 and 12**

*Email sent to Years 10 and 12 – 13.06.2020*

-----  
Dear Parent/Carer

We are now in a position where all our staff have received rigorous training to ensure their safety on site as well as lead our students safely as they begin to return. We are currently on track for a return to school for Year 10 and 12 students on the week commencing Monday 22 June, providing all elements of our risk assessment are secure. This will not mean the resumption of a full teaching timetable but scheduled days in school to deliver lessons that complement on-line learning at home.

We will contact you early next week with detailed guidance and information that will share our safety measures, school systems and expectations of children. Next week we will also ask you to share with us your intention to send your child to school as well as their method of travel to school.

Kind regards

Dr C Eardley

Senior Deputy Head Teacher
